# *DETACHED FLIGHT*

Volume 3

No. 1 British Flying Training School  
Terrell, Texas  
U. S. A.

PASSED BY R. A. F. AND U. S. CENSORSHIP

## FOREWORD

No. 1 British Flying Training School in its two years of operation has taught some hundreds of pilots to fly. These pilots have proved themselves in operational flying with the Royal Air Force to be worthy members of that Service, and have established the School's good reputation as a training ground of service pilots.

This School is the only B. F. T. S. in Texas and its pupils have been accepted with open arms and have enjoyed your wonderful Texas hospitality. The chances such hospitality has given our cadets to meet and exchange ideas with their American friends have helped them to a greater understanding of American outlook and no doubt have contributed to a better knowledge by their hosts of the British outlook.

Recently the coming of American Army cadets into this School for training has further fostered mutual understanding, and this is bound to have a great effect later when these fully trained pilots of both Services will fly and fight side by side in actual combat.

Strangers to the School often ask the question "How do the American flying and ground instructors get along with the British pupils?" and cadets are often asked the same question about the instructors. The answer is that relations are excellent. Pilots who leave this School at the end of their training go away feeling lucky that they have had such a grand group of instructors to teach them; and the instructors take a very great interest in and are always delighted to hear about the progress of their pupils.

\* \* \* \* \*

The R. A. F. Staff, and the American Operator and his staff, are proud of the pilots this School produces. We know that you will do your stuff and hope to hear of many awards for gallantry. Write back to us at this School and keep in touch with the men who have helped to show you the way to the sun.

Good Luck, Good Hunting, and Happy Landings to you all.

F. W. MOXHAM, A. F. C.

A Message From  
the Operator . . .  
**Major W. F. Long**

To the first graduating class of British and American cadets, I extend my sincere congratulations for the splendid job you have done in preparing yourselves for the final test.

With gratitude, pride and confidence, I realize it is your spirit and the will to win that will assure the successful completion of your new mission—VICTORY.

. . . and from  
the Director . . .  
**Mr. L. H. Luckey**

To the students of No. 1 B. F. T. S., we extend a hearty welcome. May your stay with us be a happy one, and the training you receive fit you for a successful future with the Royal Air Force and the U. S. Army Air Forces.

# ★ Office Staff

The running of a school of this kind requires a very great deal of paper work. Recording and checking of times and all the hundred and one details of reports, costs, records, forms and correspondence need much careful application by the various office staffs. Our thanks go to all the office staffs and some with whom cadets have most to do are shown here.

### INSTRUCTORS!

Flying Officer Ashworth, of this School's No. 8 Course, just completing a tour of instruction in a U. S. Army Basic School tells this story about instructors.

An instructor, on his way up to fly, asked a negro who was leaning against the hangar "Like to come up, Jim?" "No, sir, the ground is good enough for me." "Wouldn't you like to be an instructor, Jim?" "No, sir, not for me. It's bad enough being a nigger."

TERRELL, TEXAS

THE BOYS OF NO. 1 B. F. T. S.

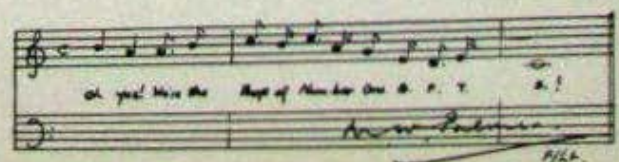

We're the boys of No. 1 B. F. T. S.,  
 To our country's call we bravely answered "yes;"  
 Crossing oceans at our peril, we have landed here in Terrell,  
 And how Texas first affects us we will leave you all to guess:  
 And though flying is the thing we're here to do,  
 We don't forget we're propaganda too;  
 So 'neath starry-spangled banners we're so careful of our manners,  
 We're the Boys of No. 1 B. F. T. S.,  
 Oh yes!  
 The British Boys of 1 B. F. T. S.

We're the Boys of No. 1 B. F. T. S.  
 And the Kaufman County Airport's our address;  
 It's a quiet little spot nr down amongst the fields of cotton  
 But we're never quite forgotten by the public or the Press;  
 And when we're tired of doing rolls and lazy eights  
 We tramp into the town and look for dates;  
 And if girls are coy or callous, well, we thumb our way to Dallas,  
 We're the Boys of No. 1 B. F. T. S.  
 Oh yes!  
 The British Boys of 1 B. F. T. S.

We're the Boys of No. 1 B. F. T. S.  
 Our instructors give us trouble, we confess;  
 For their fire we are the fuel, when they take us up for dual  
 Their remarks are something cruel—still we're learning none the less:  
 And there's a photograph on ev'ry locker door.

Of mother—or of Dorothy Lamour;  
 And often you are able to see lots of Betty Grable  
 With the Boys of No. 1 B. F. T. S.  
 Oh yes!  
 The British Boys of 1 B. F. T. S.

We're the Boys of No. 1 B. F. T. S.  
 And our very grateful thanks we must express;  
 For though we're now in clover it will very soon be over,  
 We shall see the Cliffs of Dover and be clearing up the mess;  
 But when we've finished off the War and seen it through  
 We shall think of Terrell, Texas, and of you;  
 And though sea and sky may hide you they never can divide you  
 From the Boys of No. 1 B. F. T. S.  
 Oh yes!  
 The British Boys of 1 B. F. T. S.

### "THANKS TERRELL"

We, the British cadets of No. 1 B. F. T. S. are many thousands of miles from our homes in England. Yet, thanks to the people of Terrell, many of us have found new and never-to-be-forgotten homes over here. We cannot express too fervently our appreciation of their sincere and unselfish hospitality.

### OUR FIRST DECORATION

Just before going to press we have had news of our first D. F. C., awarded to Flight Lieutenant K. G. Bickers, of our No. 4 Course. In a letter received from his father the story is told of his return from Duisberg as the Captain of a Lancaster. He was attacked by two night fighters, his rear-gunner was killed, and his mid-upper-gunner had both his legs shot off; the tail of the aircraft was almost burned off, holes the size of a dining table were shot in the fuselage and one wing, and the undercarriage was shot away. Despite this damage Flight Lieutenant Bickers flew home to his base and made a successful crash landing without further injury to his crew.

We hope this is the first of many.

### —AND THANKS AGAIN

To the people of Terrell, we, the American Cadets, wish to express our appreciation for the fine hospitality shown us during our training at No. 1 B. F. T. S. It is quite hard for you Terrellites to realize how much we appreciated those lifts to town; invitations to dinner; and friendly greetings that always awaited us when we arrived in town. You indeed have the spirit of real Texas hospitality for which your state is famed the country over. Thanks again Terrell!
